JPX DATA CATALOGUE

(English) 2022/6

~Equities (Part 1)~

Introduction

How to read Service ID

Each service has its identical Service ID. Service ID can be interpreted as below.

Table: Category and its Code

Category	Code
Equities	A
Derivatives	B
Indices	C

The services have serial number by each code. For example, A001 means the first data among equities category.

The data catalogue is divided by category and Equities part are further divided into Part 1 and Part 2.

Granularity of this Data Catalogue

This data catalogue shows the list of available datasets. In case of paid data, there might be cases that the single dataset cannot be bought. For details, please contact from address in each data catalogue.

List of Indices

The list of indices offered in each data service is in the “List_of_Indices” sheet of the Excel file on this website. Please refer to it together with this data catalogue.

Exemption from Liability

The JPX Data Catalogue provided on this website is a compilation of data services offered by Tokyo Stock Exchange, Inc. (TSE), Osaka Exchange, Inc. (OSE) and JPX Market Innovation & Research, Inc. (JPXI) on the JPX website, JPX data Cloud, and other channels. While every effort is made by TSE, OSE and JPXI to ensure there are no errors or omissions, TSE, OSE and JPXI do not guarantee the accuracy, timeliness, suitability, or completeness of the information.

The information and other content on this site may be revised, or its publication terminated without prior notice.

Due to the timing of updates, the JPX data Catalogue may sometimes not contain the latest information. Please refer to the URLs provided in the JPX Data catalogue and other related information for the latest information on each data service.

Equities (Part 1)

<Other Reports> ETF Beneficiary Survey

Statistics (Equities)

Overview

Contents

This survey was conducted regarding beneficiaries of domestic ETFs/ETNs(listed on Japanese stock exchanges (Tokyo, Nagoya, Fukuoka, Sapporo)) on the basis of the number of beneficiaries and number of beneficiary rights held, using the multiple beneficiary classifications based on the description in the beneficiary registry. Additionally, based on such data, holding net asset values/holding ratio by beneficiary type, etc. is calculated with total net asset value conversion applied to the overall number of beneficiaries and the number of beneficiary right units by beneficiary type.

<Other Reports> Summary of Employee Stock Ownership Plan

Statistics (Equities)

Overview

Contents

TSE carries out a survey to calculate the number of shares held by the employee stock ownership plan, the number of participating members, and the status of incentive payments of the companies subject to the survey. These are TSE-listed Japanese companies that have set up an employee stock ownership plan and have concluded a service entrustment agreement with one of five securities companies: Daiwa Securities, SMBC Nikko Securities, Nomura Securities, Mizuho Securities, or Mitsubishi UFJ Morgan Stanley Securities.

Daily Index Arbitrage Report

Statistics (Equities)

Overview

Contents

Sales and purchases of shares and cash position related to arbitrage trading (total of all trading participants). “Arbitrage trading” is defined as a type of program trading which focuses on price differences between cash indices calculated solely based on domestic stocks listed on the Tokyo Stock Exchange and listed derivatives whose underlying assets are said indices (including derivatives listed on other stock exchanges besides TSE both in Japan and overseas, such as TOPIX Futures & Options, Nikkei 225 Futures & Options, Nikkei 300 Futures, etc.), and which involves opening, closing or adjusting opposite positions that are closely related to each other in terms of price in trading on the same day in both the cash and derivative markets, for the purpose of making a profit.
